DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brundidge (reg. No. 29,621) on 1/4/05.

The application has been amended as follows:

In claim 5, line 2, delete [4].

The following is an examiner's statement of reasons for allowance:

Claims 1-4, 6-11 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that an integrated database system for performing query processing by combining a plurality of external databases comprising: a predicate dictionary including information on connections among predicates having similar meanings and usable in query description of query input into the integrated database

system and on strengths of the connections, as argued by the applicants in the response received on 7/6/04, pages 7-8.

Claim 5 is allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that an integrated database system for performing query processing by combining a plurality of external databases comprising: a predicate dictionary including information on connections among predicates used in the query processing and on strengths of the connections, wherein when the query selection means selects queries, a lower limit of a approximation level and an upper limit of an execution cost both of which are specified in advance are referred.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
